

**Students of Shree Raaja Rajan CBSE
School bring 70 world-famous
scientists to life!**

13.11.2025

At Shree Raaja Rajan CBSE School, Amaravatipudur, Sivagangai district, students from Kindergarten to Class 12 displayed around 350 science models and inventions as part of the Children's Day celebration.

The school chairman and former Vice-Chancellor of Alagappa University, Dr. S. Subbiah, attended the event and delivered a special address.

Dr. V. Saravanakumar, Senior Technical Officer from CSIR–Central Electrochemical Research Institute, was the special guest and graced the occasion.

The school principal, Mrs. M. Vadivambal, delivered the welcome address.

A major highlight of the event was that 70 students dressed up as famous Indian and world scientists. They spoke and presented like those scientists, explaining discoveries made hundreds of years ago. This captivated and amazed all the visitors.

Students from KG to Class 12 actively participated in the science exhibition and presented models on space, planets, scientific research, human body systems, nutrition, vegetables, fruits, greens, and their own creative innovations. They confidently explained their work in English.

The school chairman appreciated the students for confidently presenting their ideas in English at such a young age.

The special guest praised the students for demonstrating useful scientific concepts in a simple and easily understandable way through their models.

Thousands of visitors attended the event and congratulated the students, parents, teachers, and the school management.
